

# ENVIRONMENT POLICY

**Green Bean Packaging is committed to operating responsibly and reducing our environmental impact while supplying safe, high-quality food packaging products.**

We recognise that our operations, products and supply chain can affect the environment. We aim to reduce this impact through responsible material selection, efficient operations, waste reduction and continuous improvement.

## Our Commitments

- Comply with applicable environmental laws, regulations, standards and customer requirements.
- Use recyclable, renewable and responsibly sourced materials wherever practical, including FSC® certified materials where available.
- Support corrugated, paper-based and recyclable packaging solutions that help reduce environmental impact.
- Minimise waste and promote reuse and recycling across our operations.
- Use energy, water and raw materials efficiently.
- Prevent pollution and reduce environmental risks associated with our activities.
- Work with employees, suppliers and customers to support responsible environmental practices.
- Review our environmental performance and seek continual improvement.

We will continue to review our environmental practices and seek opportunities to improve performance, reduce waste and support more sustainable food packaging solutions.
