

FOOD SAFETY POLICY

Green Bean Packaging is committed to supplying safe, high-quality food packaging products that meet customer, regulatory and food safety requirements.

As a HACCP certified business, we recognise our responsibility to help protect the food supply chain by managing food safety risks associated with the sourcing, handling, storage and supply of food packaging materials.

Our Commitments

- Maintain a HACCP Food Safety Management System.
- Comply with applicable food safety laws, regulations, standards and customer requirements.
- Apply good manufacturing, handling and hygiene practices across our operations.
- Identify, assess and control food safety hazards that may affect our products.
- Ensure food packaging products are suitable for their intended use.
- Source materials from approved suppliers that meet our food safety and quality requirements.
- Maintain appropriate product identification, traceability and record keeping.
- Review our food safety performance and seek continual improvement.

We will continue to review and improve our food safety practices to ensure they remain effective, relevant to our operations and aligned with HACCP certification, customer expectations and legal requirements.
